

# How does it work?

## How does the dual pricing system work?

### 1 No contract

We believe you will love working with us, so there's no long-term contract or early termination fee. **The only fee you will pay is one flat fixed monthly fee.**

### 2 Free equipment

We'll cover the cost of your card terminals for you!

### 3 Residual income

We don't make any money by you filling out an application - we actually make an investment in you by purchasing terminals for you. Instead, we make a small percentage off of card transactions at your business. So we have every reason to make sure you have a great reason and stay with us long-term!

## How does the dual pricing system work?

Your terminal will be set up.
