

Nulo Finance

Cut your card processing fees by 80% or more.

WORKING WITH US

1

We'll go through our application together to get your business details. You can keep the same bank account, and most businesses are approved in less than one week!

2

We will order your free terminals and come set them up for you and give you signs to post explaining the new dual card/cash price.

3

When your customers check out, ask:
"Cash or card? We offer a discount for paying in cash."
The free terminal will automatically show both the cash and credit price.

4

Your customer's receipt will show the discount for paying in cash, or no discount if they paid with card. That's it!

OUR PLATFORM

NO CONTRACT

We believe you will love working with us, so there's no long-term contract or early termination fee. The only fee you will pay is one monthly fee.

FREE TERMINALS

We will cover the cost of your terminals for you! You'll be getting brand new terminals accept tap, Apple/Google Pay, swipe, and chip cards.

RESIDUAL INCOME

We don't make any money from you applying - we actually make an investment in you by purchasing your terminals. Instead, we make a small percent from card transactions at your business.
